WORK EXPERIENCE

WEB DESIGNER/UI DEVELOPER
I Serve Systems Pvt. Ltd. - Gandhinagar - Infocity   NOVEMBER 2016 PRESENT

I develop user interfaces (UIs) by translating design mockups into responsive web pages using HTML, CSS, and JavaScript while ensuring cross-browser compatibility and mobile responsiveness. My expertise includes designing and developing WordPress front ends, customizing and converting themes, and collaborating with UX/UI designers to bring design concepts to life. I focus on optimizing website performance for speed and efficiency, debugging and resolving web issues, and ensuring website accessibility and compliance with standards. Additionally, I implement and maintain content management systems, test and validate web forms and interactive features, and collaborate with back-end developers to seamlessly integrate front-end and back-end systems. Staying updated on industry trends and best practices is integral to my work.

JUNIOR WEB DESIGNER
Ecomgrowth Solutions pvt. ltd   JUNE 2016 - OCTOBER 2016

Web Designer-UI Developer (Html/css/bootstrap/wordpress) With 5 months of experience as a UI developer at eComgrowth Solutions (Ahmedabad), I have gained great knowledge in creating efficient and interactive user interfaces. My expertise in HTML, CSS, JavaScript, and jQuery enables me to deliver high-quality designs that cater to different screen sizes and devices. I am dedicated to delivering visually appealing and engaging designs that enhance the user experience.

WEB DESIGNER (HTML/CSS DEVELOPER)
Yudiz Solutions Pvt. Ltd. Ahmedabad   DECEMBER 2015 - MAY 2016

I have 6 months of training experience at Yudiz Solutions Pvt. Ltd. in Ahmedabad, where I served as a web designer and worked on PSD to HTML and PSD to WordPress conversions. During my time there, I was able to develop and refine my skills in web development and gain valuable insights into the industry. Yudiz Solutions is a well-respected company in the field of web development and mobile app development, and I was grateful for the opportunity to learn from some of the best in the business.

COVER LETTER

I am excited to apply for the Front-End Developer position at well known company like yours. With experience creating responsive, user-friendly interfaces and a strong foundation in HTML, CSS and JavaScript, I specialize in delivering seamless digital experiences.

In my current role at **I Serve Systems Pvt. Ltd.** , I translated design mockups into interactive web pages, collaborated with UI/UX designers for pixel-perfect implementations and optimized WordPress themes for performance and user engagement. I am skilled in debugging, troubleshooting and integrating front-end solutions with back-end systems, all while staying current with the latest web development trends.

I would welcome the opportunity to discuss how my skills and experiences align with your needs. Thank you for considering my application. I look forward to the possibility of contributing to your team and would be delighted to discuss this opportunity further.

I, Vidhi Khatsuria, confirm that the information contained in this document is complete and correct to the best of my knowledge.
